

PROUDLY
MADE IN THE UK
SINCE 1923

A nighttime photograph of a railway station. Several high-speed trains are parked on the tracks. The scene is illuminated by numerous overhead lights, creating a bright, industrial atmosphere. The tracks and surrounding infrastructure are visible in the foreground and middle ground.

**LIGHTING
FOR RAIL**

LIGHTING FOR RAIL

CU Phosco Lighting have offered lighting solutions in the rail industry for many years and continue to do so. Whether it be supply only of LED lanterns for a station car park or the supply and installation of high mast lighting for rail sidings, CU Phosco Lighting have the extensive product range and specialist knowledge to offer a full turnkey package for any rail project.

CU Phosco Lighting offer the following:-

- A dedicated project manager providing a single point of contact
- A complimentary lighting design service
- Manufacture and supply of high-quality products.
- Complete installation package which can include civils works if required.
- Testing and Commissioning

All our rail lighting products are designed and manufactured in our factories in the UK. Lighting designs are completed by our in-house technical team who have many years of designing rail projects. Our PTS qualified installation teams are highly skilled and competent and have a vast amount of experience working in the rail environment.

Some completed Rail projects include:-

- Ilford Rail Depot
- Newton Heath Rail Depot
- Pye Corner Station
